## 2021

A researcher's laboratory is akin to their second home. COVID-19 kept researchers all over the world out of their laboratories for almost a year. BSW is launching a campaign to acknowledge this drastic change in the life of countless researchers.

### CREATIVITY

Story about the opportunities you got to work in a laboratory, your views/opinions/experiences as a researcher who has spent time in laboratories.

#### MINUTE IS THE LIMIT

Send us one minute video

#### QUEST NARRATIVES

300 words article

### WATCHWORDS

Every participant must end their video with the sentence,

“This was my path of resilience against Covid 19. To know more about the scientific diagnosis and treatment of Covid19, make sure to attend the Biosimilar workshop 2021. Link in the description!”
