

5TH ANNUAL SUMMIT ON BIOPHARMACEUTICAL PRODUCT DEVELOPMENT

INDULGE, INNOVATE, INSPIRE.

JANUARY 30-31, 2025 | NOVOTEL DONA SYLVIA RESORT, GOA, INDIA

ABOUT US

Institute of Chemical Technology is a state-funded deemed university in Mumbai, India. The institute also has campuses in Bhubaneswar, Odisha and Jalna, Marathwada. It is focused on training and research in the fields of chemical engineering, chemical technology, and pharmacy

With the support of the government of India, under the scheme of the Sathi Foundation DST, the Mumbai Biocluster is set to catalyze innovation in biopharmaceuticals by serving as an accelerator for startups, academia, MSMEs, and industries, providing state-of-the-art infrastructure and expertise to accelerate innovations.

Biologics Conference and Workshop 2025, is a landmark event set to convert the entire biopharma community into an unparalleled experience in innovation, networking, and collaboration. We invite you to join us and be part of this groundbreaking event.

BIOLOGICS 2025 AT-A-GLANCE

BSW 2025: TENTATIVE AGENDA

| SESSION TRACK 1 | SESSION TRACK 2 | SESSION TRACK 3 |
|--|---|--|
| 30 JANUARY 2025 | | |
| Bridging the gaps in Biologics and Biosimilar development | | |
| Cell Line Development and Upstream Processing | Advancing Analytical methods and development | Formulation, stability and delivery of new modalities |
| Advances in Downstream Processing | Cell-based potency assays | Clinical validation of Biologics, biosimilars including rare and orphan diseases |
| Solutions to Regulatory Challenges | Introduction to Bispecific Antibodies Discovery | Round table discussions and Start-up sessions |
| 31 JANUARY 2025 | | |
| Symposium on Advanced Therapies | | |
| Cell and Gene Therapy: Manufacturing and Analytics | mRNA development, manufacturing and challenges | Advances in viral vectors and clone development |
| BioNext Symposium | | |
| Digital transformation using AI-ML in bioprocess | Newer trends in automation and data solutions | Facility Design Aspects and Challenges in QMS, LIMS and eBMR |

Keynote talk Session
